## HOW TO READ THE LOGISTICAL INFORMATIONS:

Code	Description	<sup>1</sup> Carton	<sup>2</sup> Pallet	<sup>3</sup> Volume
<b>0590AB25K7</b>	Chrome-plated ABS flange	12	504	0,057

- 1 CARTON:** It is the quantity of one item per master carton
- 2 PALLET:** It is the quantity of one item per pallet
- 3 VOLUME:** It is the master carton's volume (to be used to calculate the total volume of the order)

### SEVERELY IMPORTANT!

#### NOTICE TO THE CUSTOMERS:

-MOQ for ex-works orders is one (1) master carton.

-If an ordered quantity for an item is not a multiple of the MOQ and/or requires the operators to repack in a master carton different than the one stated in the catalogue, **the item's sale price will be charged of a further 5%.**

-When the quantity per master carton is not specified in the catalogue (example: N.A.) it means that the item can be ordered at any desired quantity without extra charges.

-Bonomini Srl reserves the right to change the afore mentioned specifications at any time.

**MINIMUM ORDER : € 300,00**

#### PICK-UP POINT ADDRESS:

Bonomini s.r.l.  
Via Dott. Raffaele De Troya n.72  
25010 Borgosatollo (Brescia) - Italia

The only click-clack angle valve

In case of jamming and/or malfunction of the mechanism, proceed as follows;

With a tool, pry the knob, taking care not to damage the chrome plating of the tap

Remove the knob, paying attention to the white plastic cap

With a wrench, unscrew the plastic nut

Extract the components, if necessary clean them from dirt and/or limescale residues

Note - Re-assemble all components in the order shown in the image

The only click-clack angle valve

A.14

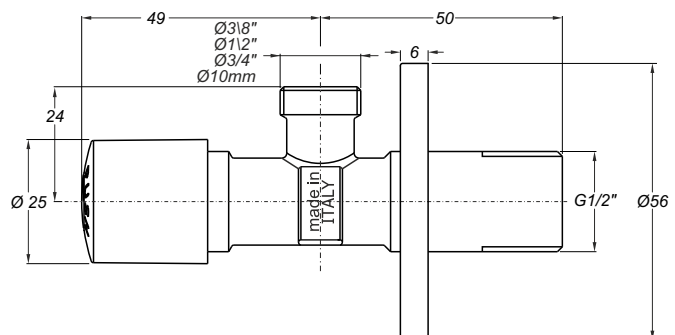

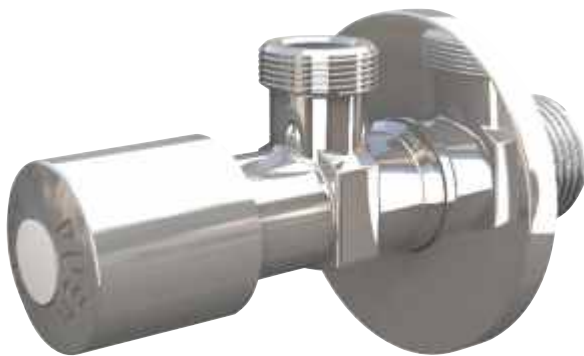

"PULSAR" the only click-clack angle valve. Its POM and stainless steel mechanism avoid lime deposits. The non-return valve assures an anti-ice function

**Application:** For indoor and outdoor applications

0974RV54S7

Determine the extent of the total thickness between the upper edge of the drain and the lower surface of the shelf. Mark the measurement H1.

Add 30mm to size (H1) taken to find the maximum length of the drain, which is the height at which to cut the excess thread.

If necessary, make one or more holes for the passage of water from overflow.

Plastic waste for washbasin or bidet, with replaceable click clack mechanism and cover. Waste connection 1"1/4,  $\varnothing$  65 mm flange

Shower tray adjustable drain. Stainless steel grid  $\varnothing$  70 mm

**Application:** For shower plates with hole  $\varnothing$  50 mm

**Material:** polypropylene PP + stainless steel

**Color:** white / polished

Code	Description	Carton	Pallet	Volume
5514WZ45B0	Adjustable outlet $\varnothing$ 40-50 mm	25	600	0,080

## THE NEW MORE PRACTICAL AND VERSATILE SHOWER DRAIN

### GREATER ADVANTAGES:

Longer drain for pipe connection outside the tray  
 Waste with bigger 2" thread  
 Reduced height while complying with Norm EN-274 as regards to 50 mm water seal trap  
 Removable siphon with a greater drain capacity due to its bigger 2" waste

"NAUTILUS" extended shower tray waste. With removable siphon compliant to EN-274, height reduced to 64 mm, stainless steel dome  $\varnothing$  83 mm

**Application:** For shower plates with hole  $\varnothing$  60 mm

**Material:** polypropylene PP + stainless steel

**Color:** white / polished

**Flow rate :** 25,9 l/min

**Water column :** 50 mm

Code	Description	Carton	Pallet	Volume
5780CR80B0	Extended drainpipe $\varnothing$ 40-50 mm	25	600	0,080

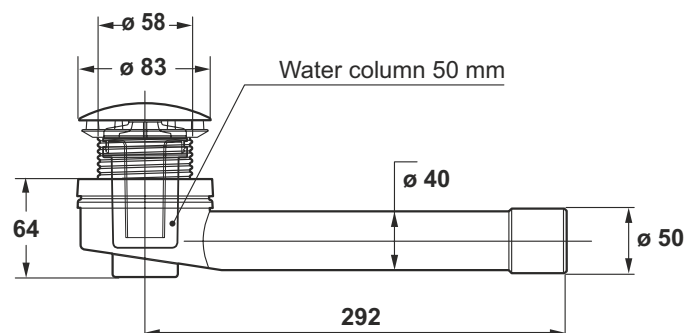

1 Extended drainpipe for connection outside the tray

2 Stainless steel dome

3 Fully removable and dismountable siphon

4 Extremely reduced height: only 64 mm below the shower tray compliant to EN-274: 50 mm water seal trap

"FRANCESINO" shower tray drain. With removable siphon according to EN-274, height reduced to 65 mm, Cover in chrome-plated ABS  $\varnothing$  83 mm

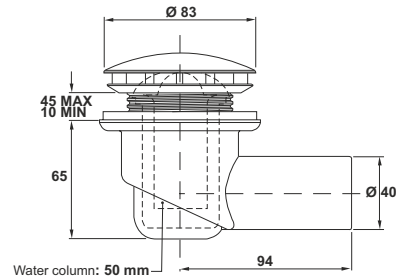

**Application:** For shower plates with hole  $\varnothing$  60 mm

**Material:** polypropylene PP + ABS

**Color:** chrome plated / grey

**Flow rate :** 27,0 l/min

**Water column :** 50 mm

- 11 Screws for micrometric regulation
- 12 Allen key
- 13 Siphon Mini-Drain
- 14 Low bowl, water column: 30 mm
- 15 Gommone
- 16 Siphon Sogliola
- 17 Waterproofing sheet

### CAMOUFLAGED DRAIN

Double Face grid mounted with the tile glued to the inside of the grid. The drain is almost INVISIBLE.

Rotating the Double Face grid side to change the aesthetic effect.

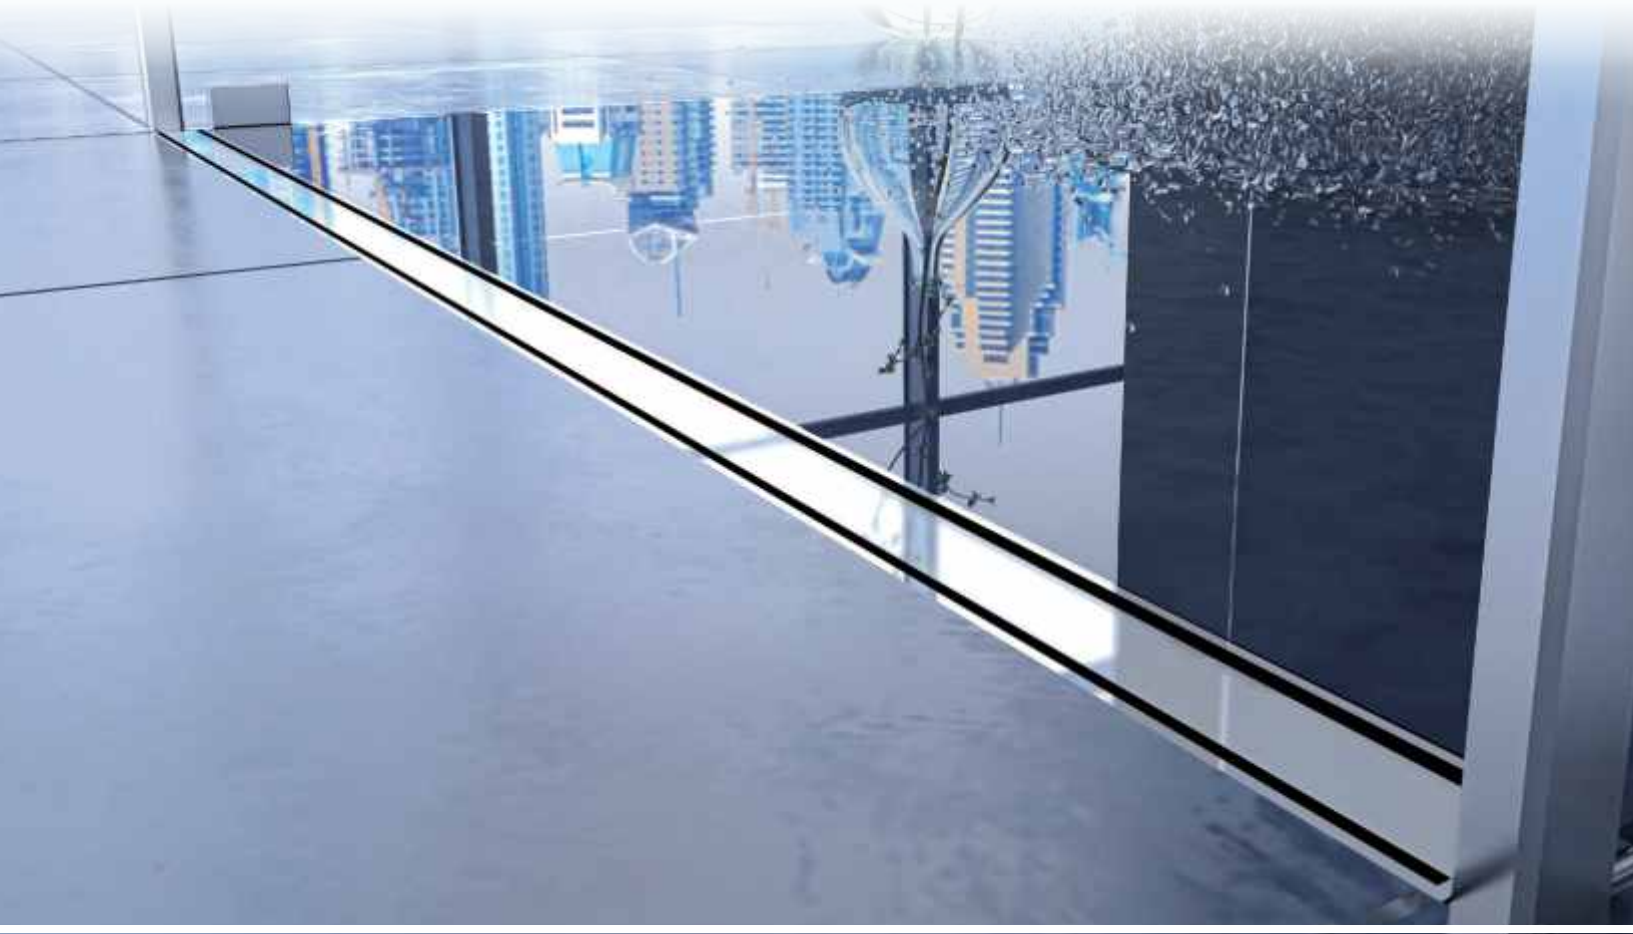

In this view Double Face grid's polished aluminium side is mounted.

The particular section "U" of the cover allows the tiling. Thus the esthetic result obtained, is surprising in that the discharge point of the shower is completely camouflaged in the floor of the bathroom.

"CANALISSIMA" shower and floor channel. "DOUBLE FACE" adjustable full stainless steel AISI316 tileable grid

**Application:** For shower and floor drains

**Material:** stainless steel AISI316 + ABS

**Color:** satinated / black

**TILE ADHESIVE**

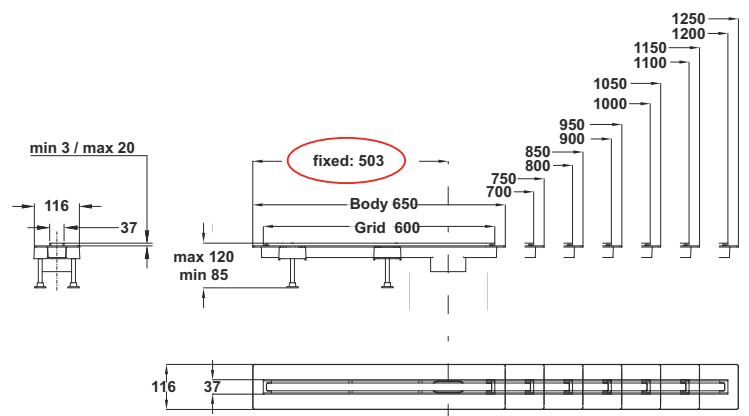

**STAINLESS STEEL AISI316**

**ABS PLASTIC**

**CONTINUOUS CHANNEL**

**CHANNEL WITH CHANGE OF DIRECTION**

**SOLUTION WITHOUT DRAINAGE SLOPE!**

The component parts of the CANALISSIMA modular system are such as to make possible any solution, thereby giving free rein to the creativity of architects and designers. Furthermore, the possibility of creating a "square" channel, like that shown above in the illustration, permits eliminating the need for drainage gradients!

# CANALISSIMA Double face CONTINUOUS CHANNEL

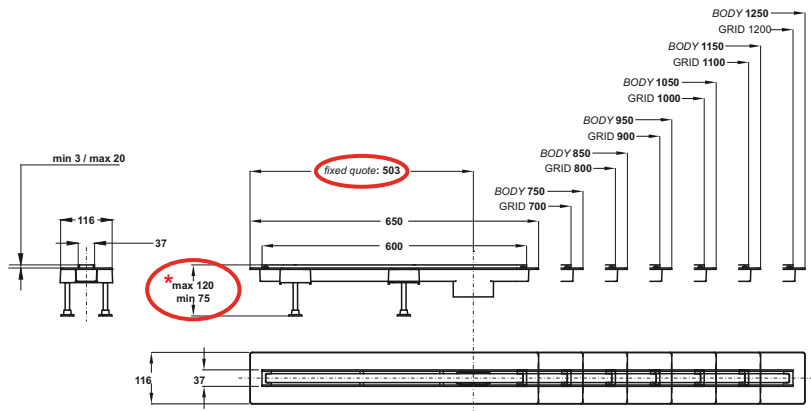

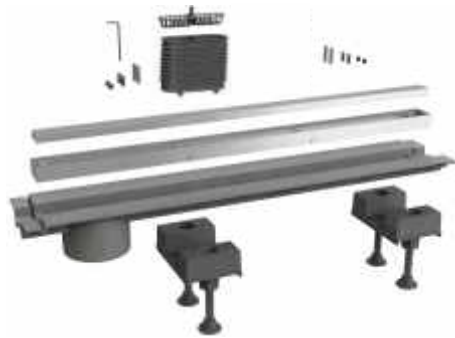

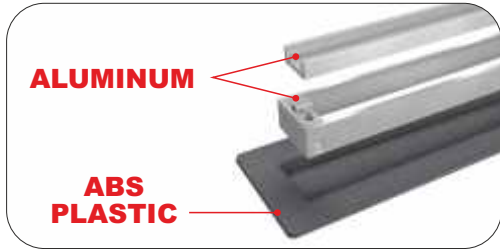

"CANALISSIMA" continuous channel version. "DOUBLE FACE" adjustable full aluminium tileable grid

**Application:** For customized floor drains

**Material:** Aluminum + ABS

**Color:** satinated / black

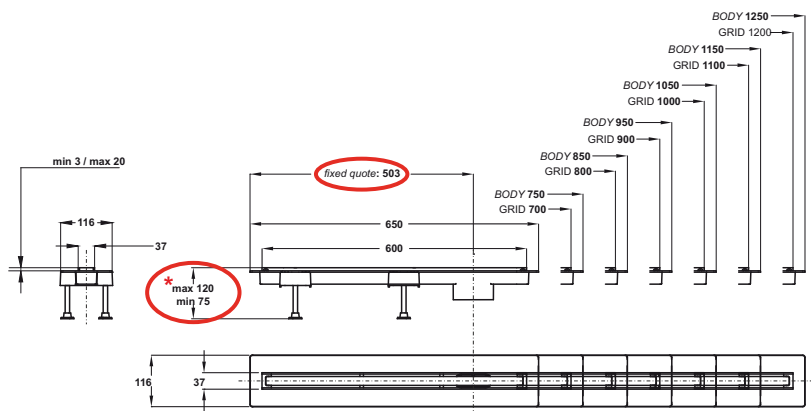

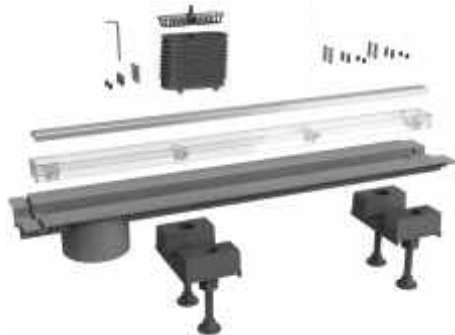

Code	Description	Carton	Pallet	Volume

"CANALISSIMA" continuous channel version. "MIXAGE" adjustable tileable grid with ABS frame and stainless steel AISI316 insert

**Application:** For customized floor drains

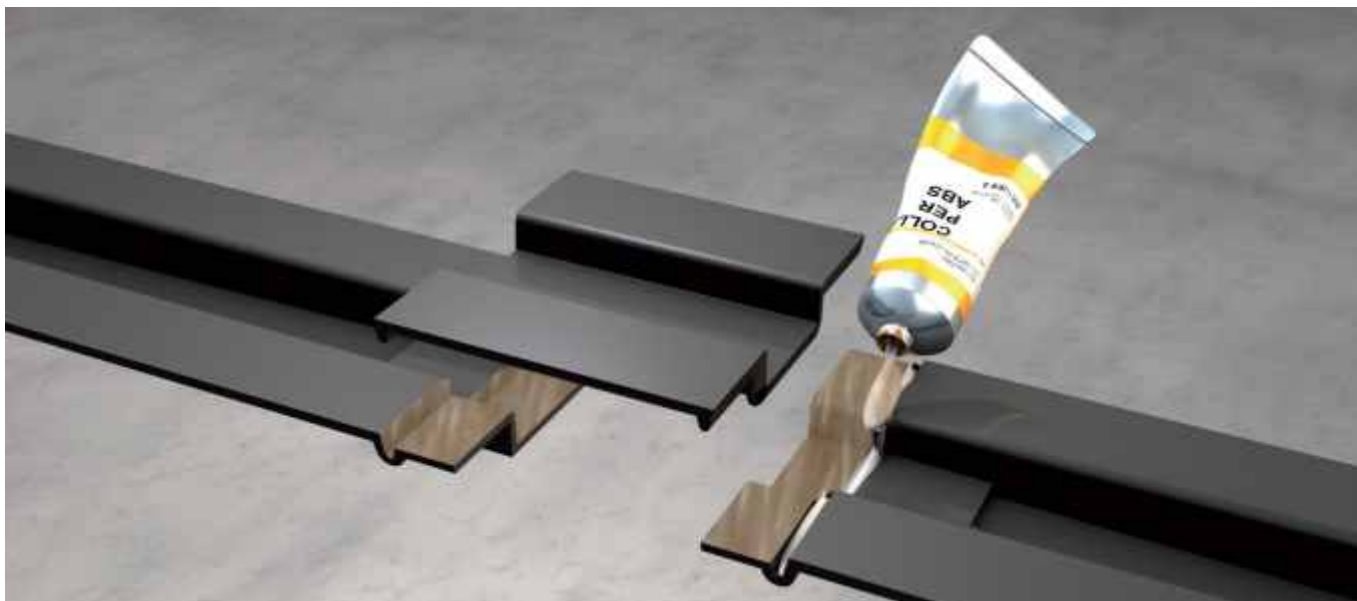

**Material:** stainless steel AISI316 + BPA + ABS

**Color:** satinated / black

After verifying the surface cleaning, possibly using specific detergent, glue the component (or components) with the end of the channel / and apply suitable amount of adhesive specific for ABS, for example TANGIT XY, on the free end of the channel / s. This must be done by a professional and experienced.

After you have paired the elements to be glued, use bench clamps to maintain a suitable pressure on the areas of bonding as illustrated in figure. Keep the clamps until the complete drying of the adhesive according to the glue manufacturer. This is important to obtain a properly aligned assembly of the various components, especially in the case of very long sections of several channels.

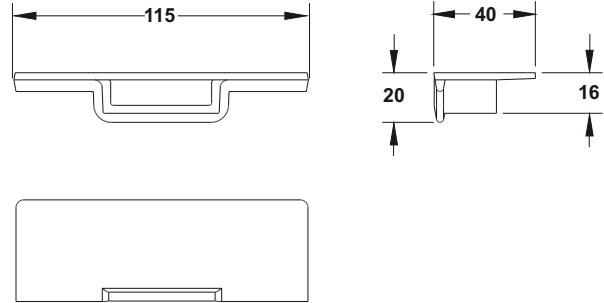

"CANALISSIMA" closing cap

**Application:** For continuous channel version

**Material:** ABS

**Color:** black

# VALVOLA ANTI ODORE per CANALISSIMA

Non-return valve in normally closed position, with no water flow. The perfect closing of the valve's stops the return of bad smells into the house.

Non-return valve in open position, with water flow. The membrane of the valve has a really high sensibility that allows even the minimum water flow. In addition the discharge is higher compared to a traditional siphon, that is however subject to the phenomenon of water evaporation, and consequently to the passage of bad smells

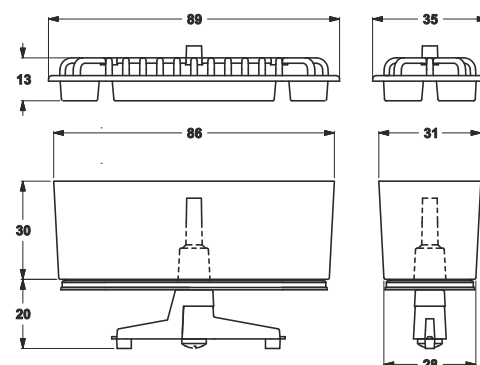

Mechanical odour trap in sylicon for "CANALISSIMA". Suitable for very cold (ice) or very hot (evaporation) weathers

**Application:** for "CANALISSIMA"

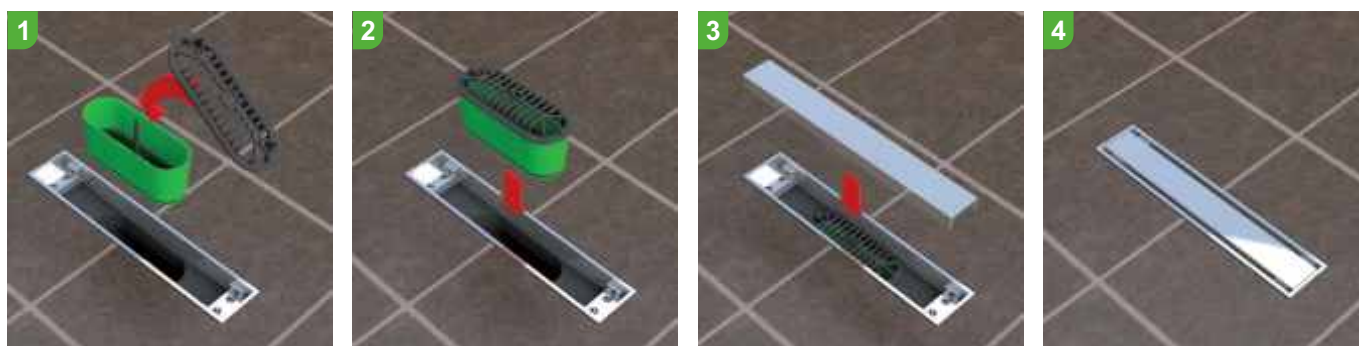

**Material:** ABS + sylicon

**Color:** black / green

Example of installation of the waterproof sheet NOT ADHESIVE for internal corner use Art. 6813IM12C

# N.R.V. Non-return valve

Non-return valve N.R.V. in open position, with water flow. The membrane of the valve has a really high sensibility that allows even the minimum water flow. In addition the discharge is higher compared to a traditional siphon. This device allows to reduce the vertical size of the siphons, that can be installed in thin slab, where on the other side a specific siphon should have a limited height of the water column, with the consequent risk to dry too fast and allow the return of the bad smells.

Non-return valve N.R.V. in close position, with no water flow. The perfect adherence of the membrane of the valve to the walls of the discharge stops the return of bad smells into the house. Suitable for all the floor outlet hoses of Bonomini srl, with inlet  $\varnothing 90$  mm. Easy to remove for the maintenance of the waste. It can be also used as a fishing device into the water basin of a siphon (for example VULCANO of Bonomini srl), so to create a double block to the smells: both mechanical and hydraulic. In this case it is important to pay attention to insert the valve over to the water level of the siphon, so to avoid to drown the valve. In addition take into consideration a consequent limited reduction of the flow rate.

"NRV" silicon mechanical anti-smell non-return-valve.

Universal retro-fit version

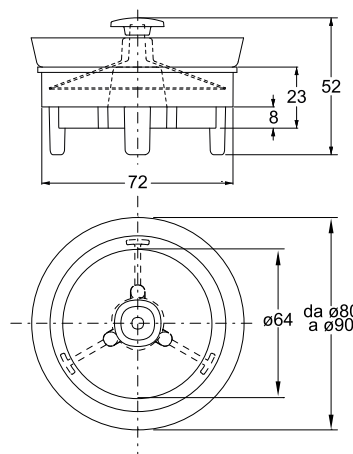

**Application:** To stop bad smells

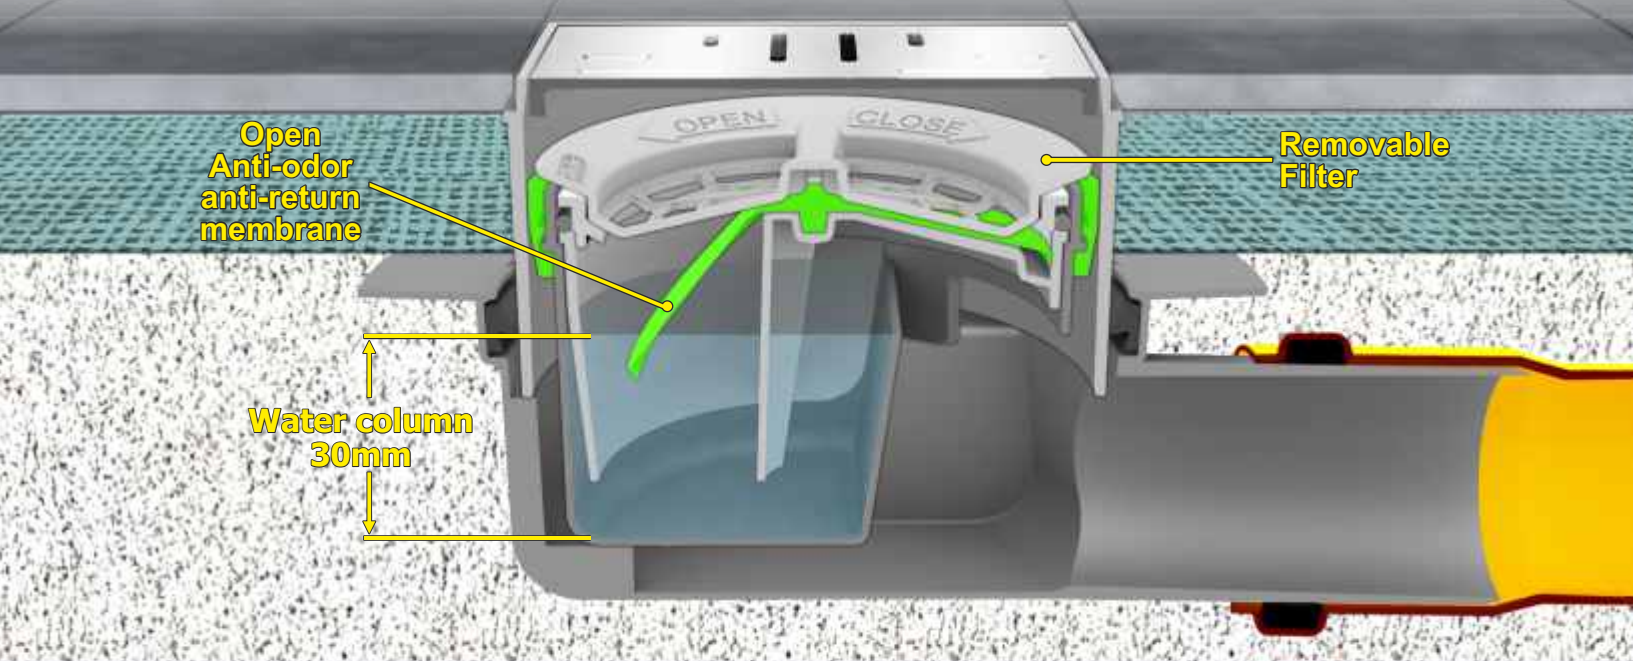

**Material:** ABS + silicon

**Color:** black / green / white

**Material:** ABS + stainless steel

**Color:** grey / metal

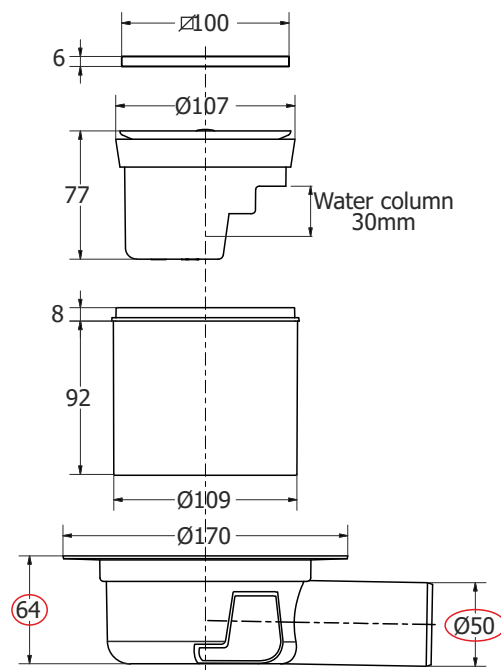

Code	Description	Carton	Pallet	Volume
6956CX50S9	Outlet $\varnothing$ 50 mm	8	120	0,131

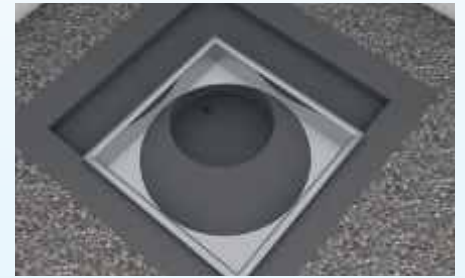

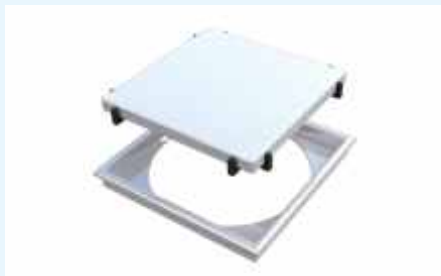

Detail of the layered section, shows the position of the different used materials. Let's make attention how the metallic grid is putted into the hose tray (MANICHETTA VASSOIO), so to allow the thickness of the grid to the reaching perfectly to the level of finished floor. Particular the presence of the squared expanded polyester (yellow in the picture), for the filling of surrounding area of the grid. It works also as a protection during construction

Notice the possibility to regulate the position of the grid with the lines of the tiles. It is possible to insert grids from 10x10 mm up to 20x20 mm. The perimetric frame provides the fixing surface for the waterproofing made by sheats or by the chemical resins, directly under the tile.

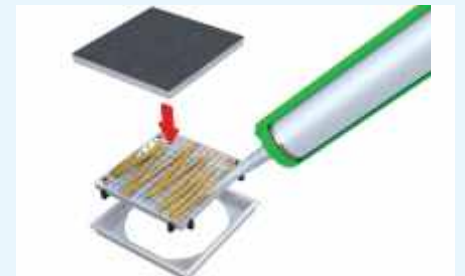

**ATTENTION:** While positioning the grid, avoid with care to obstruct the hole of the hose tray, in order to pull out easily the special silicone rubber siphon of Bonomini production.

Cover mounted with visible glossy surface

Rotating the DOUBLE-FACE cover to lay the tile

Apply the cement adhesive inside the grid and lay the tile appropriately cut to size

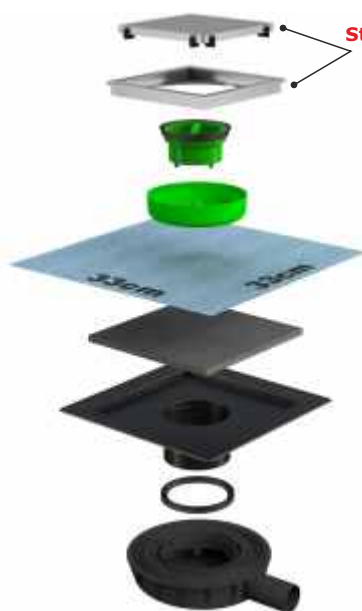

"VASSOIO" ultra low floor drain with tileable grid. Tileable "DOUBLE-FACE" grid with special flange for under-the-tile waterproofing, wet odour trap version

**Application:** For indoor applications with thin slabs

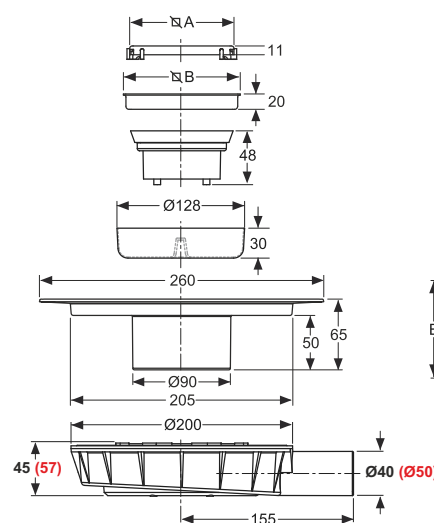

**Material:** ABS + stainless steel

**Color:** black / metal

CONDENSATE AIR-CONDITIONING

## TECHNICAL FEATURES

Release the two hooks which maintain the small basin in position, and incline the small swing-basin in the desired direction.

Apply the carton protection cover on the WALLBOX®, and stop it with the 4 handles, which will avoid also any possible deformations of WALLBOX®, caused by the masonry.

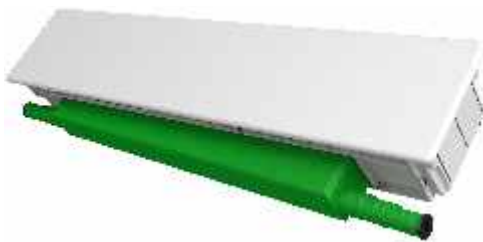

"Wallbox" Air-conditioning device condensating water catcher. Double connecting nozzle

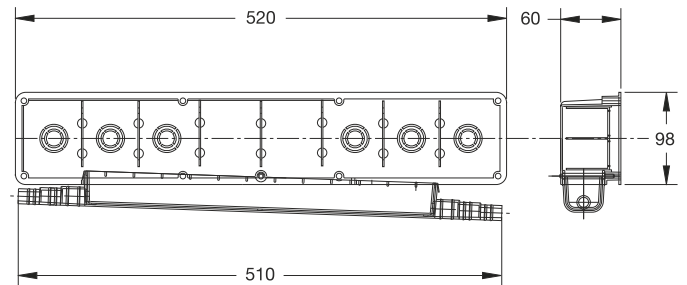

**Application:** Concealed in the wall

**Material:** PS + PE

**Color:** white / green

Code	Description	Carton	Pallet	Volume
7810PA50K2	52 cm long box	20	240	0,125

"Wallbox" Air-conditioning device condensating water catcher. Double connecting nozzle

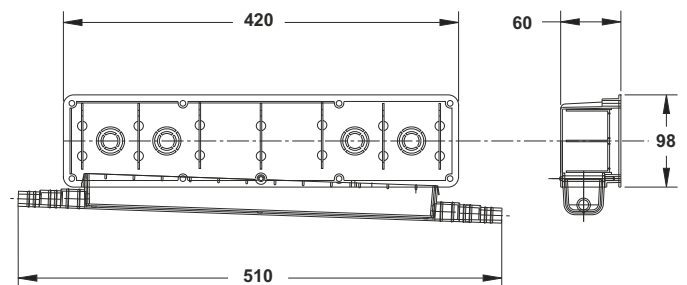

**Application:** Concealed in the wall

**Material:** PS + PE

**Color:** white / green

Code	Description	Carton	Pallet	Volume
7810PA40K2	42 cm long box	20	240	0,125

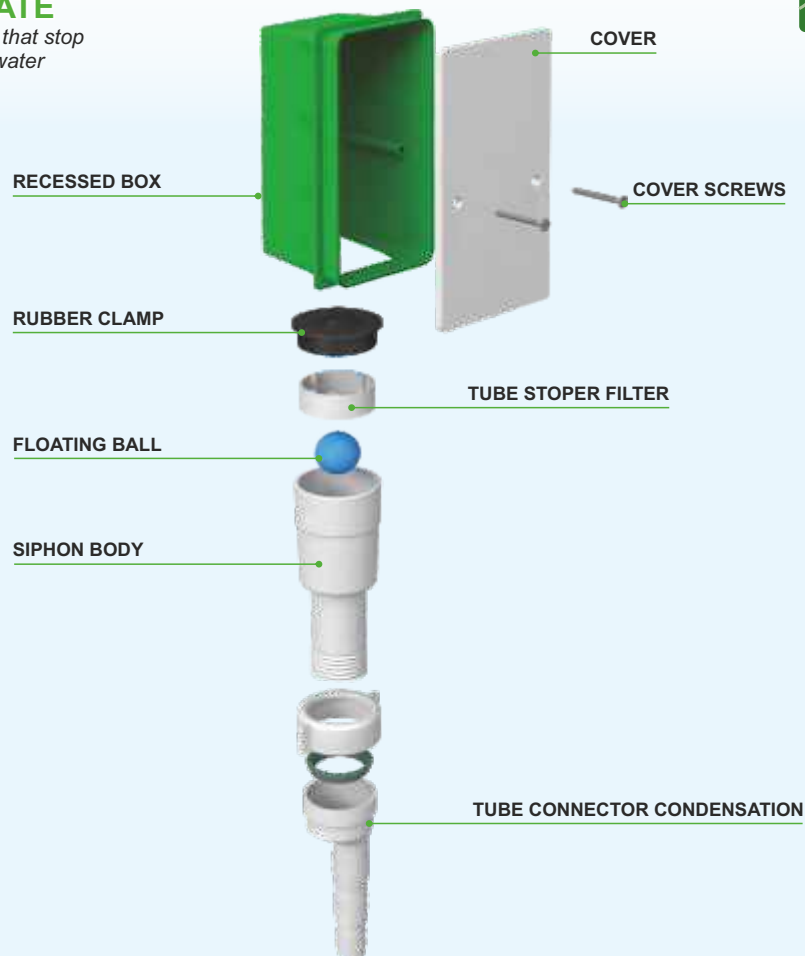

# COPERNICO

## DRY SIPHON FOR CONDENSATE

Dry wall siphon working with a gravity ball plug, that stop bad smells also without condensate discharge water

Box to install into the wall, the siphon can be removed completely for cleaning and service operations

"Copernico" condensating water dry siphon.

Removable for cleaning

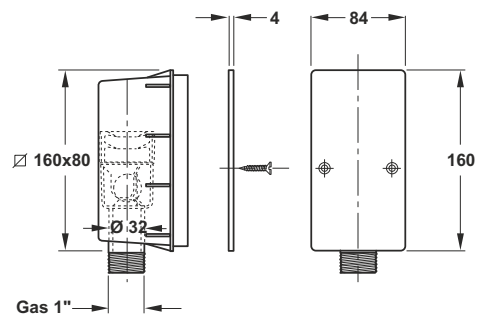

**Application:** For condensating water discharge systems

**Material:** polypropylene PP

**Color:** white / green

Code	Description	Carton	Pallet	Volume
7840EC32B0	Threaded outlet 1"	15	960	0,029

"Copernico" condensating water dry siphon.

Removable for cleaning

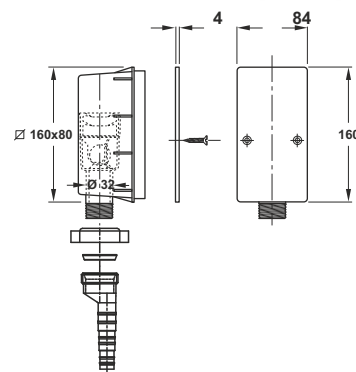

**Application:** For condensating water discharge systems

**Material:** polypropylene PP

**Color:** white / green

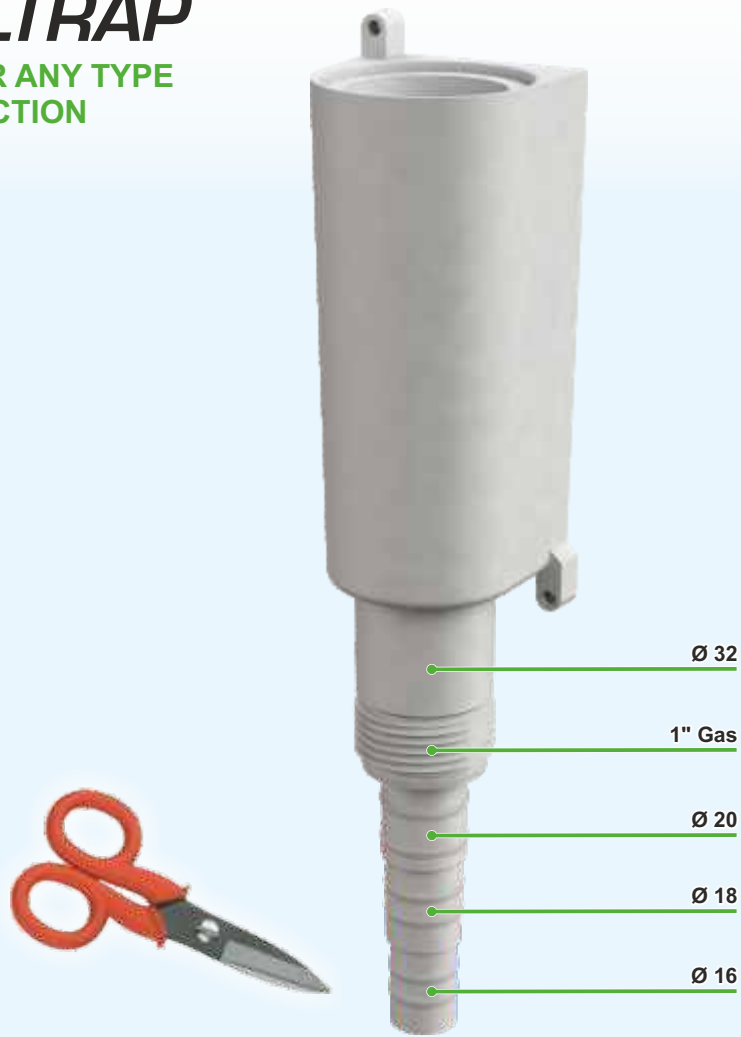

Code	Description	Carton	Pallet	Volume
7841EC32B0	With hose connection ø 16 - 18 - 20 mm	15	960	0,029

# WALLTRAP

READY FOR ANY TYPE  
OF CONNECTION

"Walltrap" condensating water odour trap.

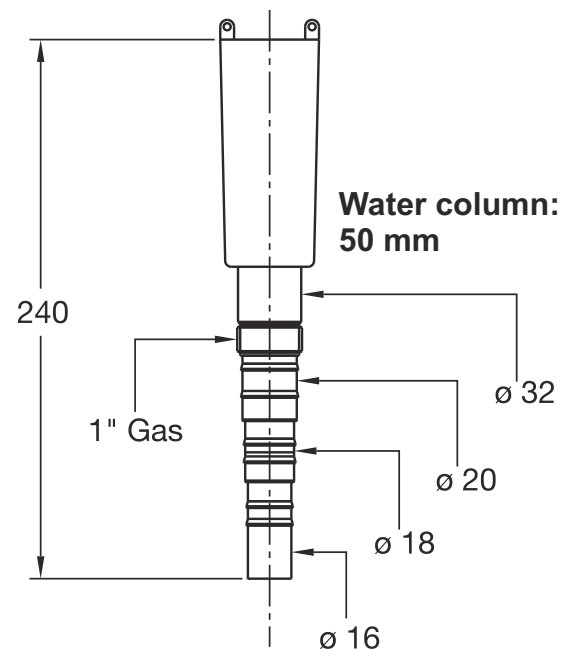

ø 16 - 18 - 20 mm

**Application:** Per impianti di scarico condensa

**Material:** polypropylene PP

**Color:** white

Code	Description	Carton	Pallet	Volume
7830UN32B0	Universal version: concealed in-wall or at sight	25	1600	0,029

# ACCESSORIES

Connection nozzle for the condensating water hose. BI-POWER washer

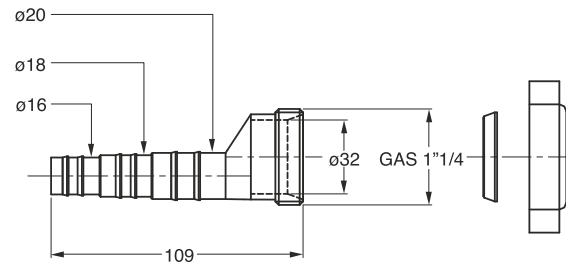

**Application:** To connect the condensate catcher to the plumbin system

**Material:** polypropylene PP

**Color:** white

Code	Description	Carton	Pallet	Volume
7886PP32B0	ø 16 -18 - 20 mm x 1"1/4	20	N.A.	0,004

"Y" branch for condensate discharge installations. 3 ways branch for white pipes

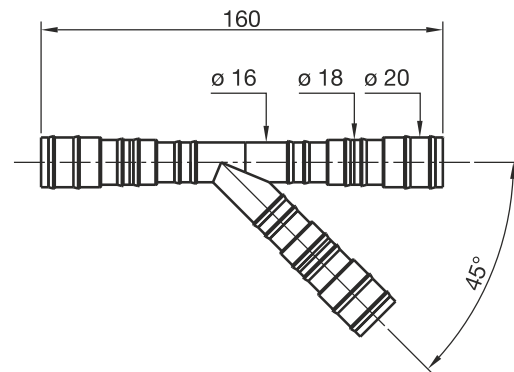

**Application:** To connect the condensate catcher to the plumbin system

**Material:** PE

**Color:** white

Code	Description	Carton	Pallet	Volume
7882PE20B0	ø 16 -18 - 20 mm	20	N.A.	0,004

Condensating water waste hose, with anti-UV additives. Supplied in rolls

**Application:** To connect the condensate catcher to the plumbin system

**Material:** PE + polypropylene PP

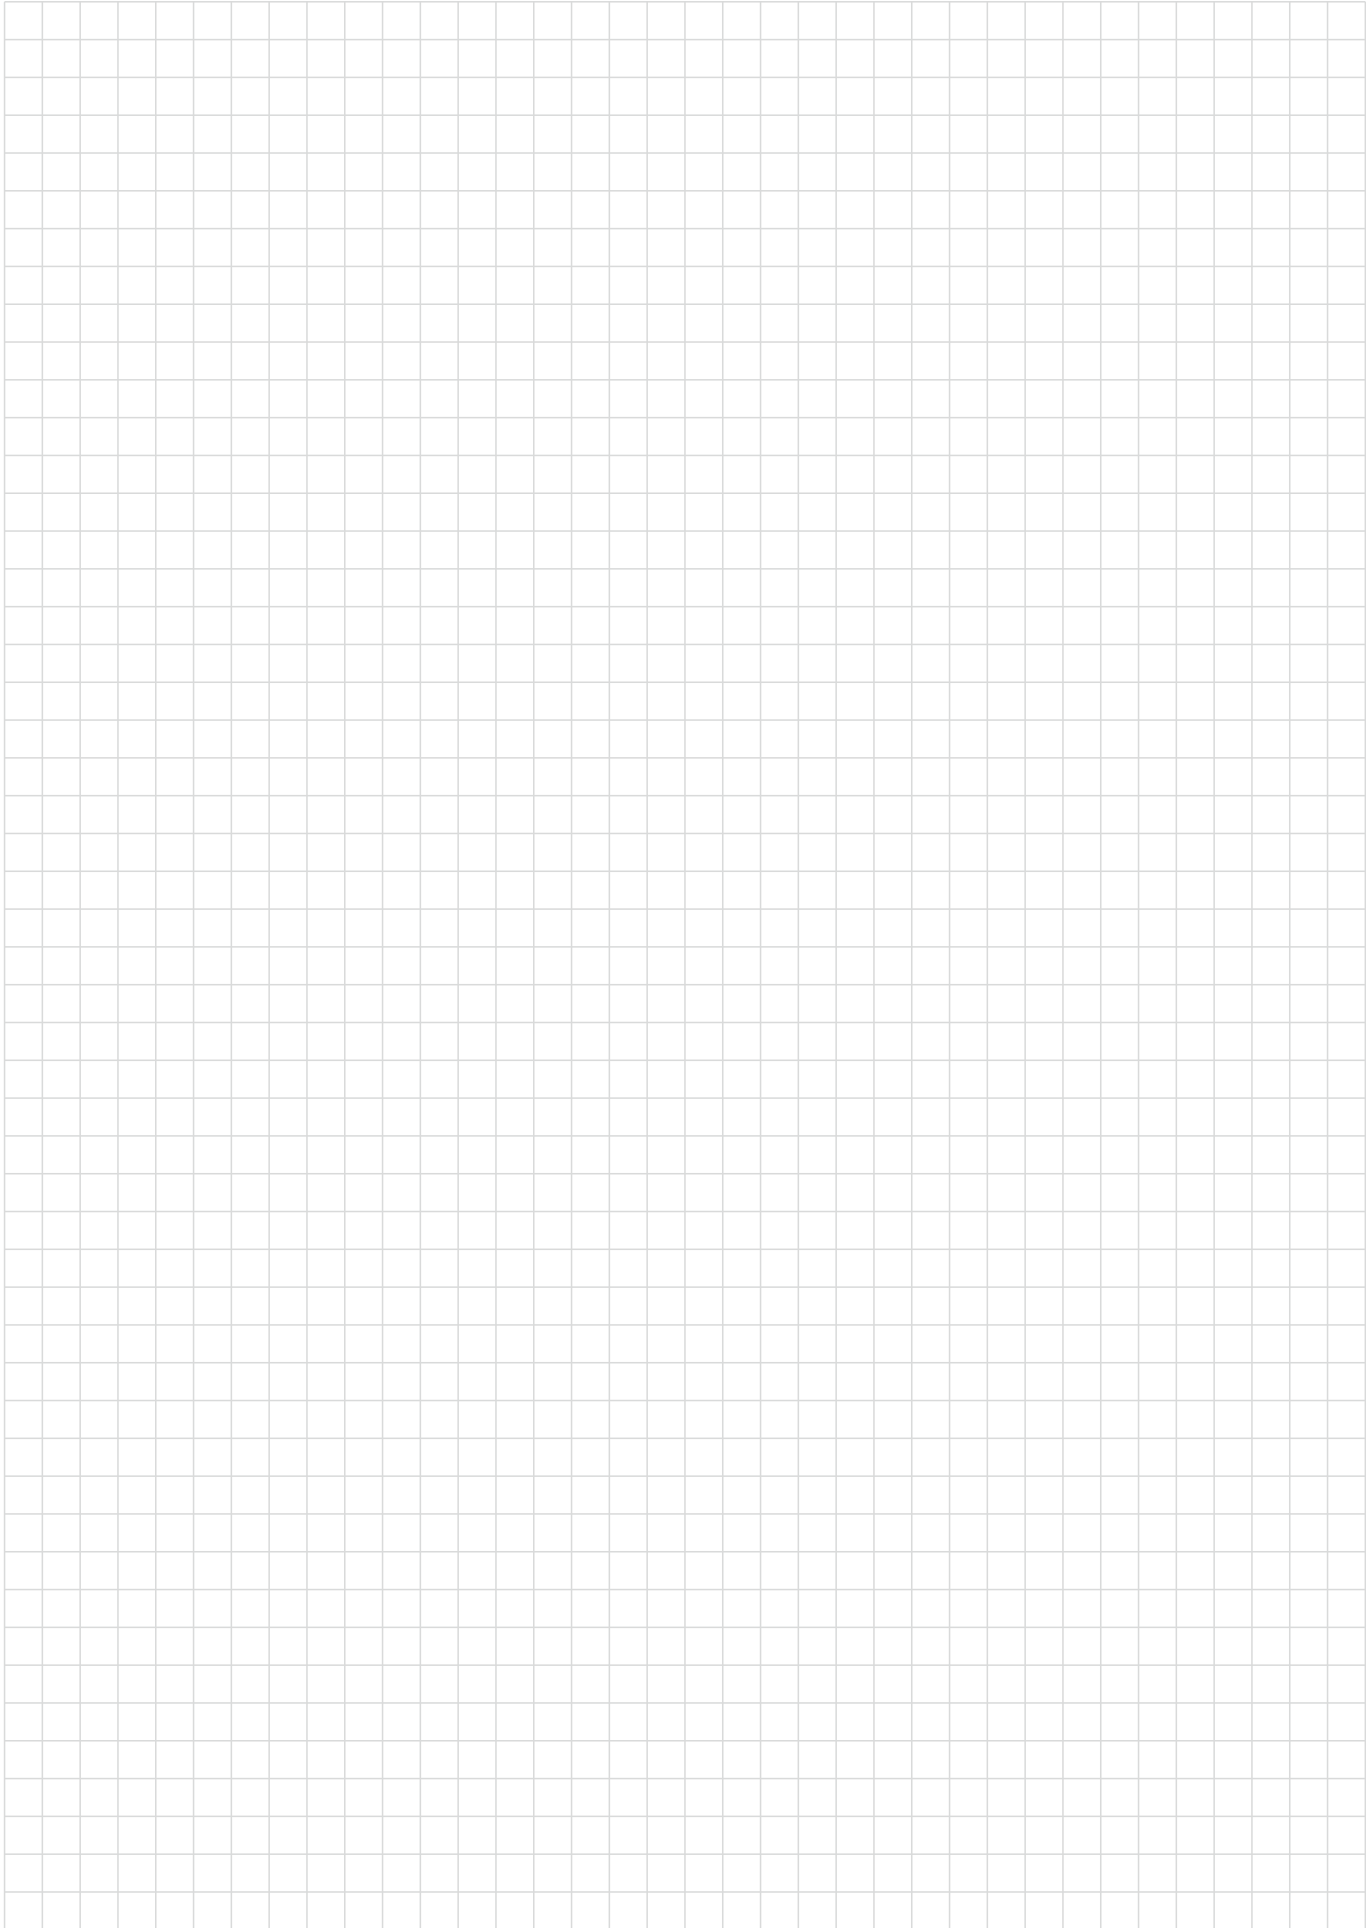

**Color:** white

"BISMAGIKA" extendable pipe for gas pipelines.

Self-extinguishing.

**Application:** For gas pipelines

**Material:** polypropylene PP

**Color:** yellow

Code	Description	Carton	Pallet	Volume
9002PP20C3	Hole ø 20 mm	50 mt	2700	0,026
9002PP25C3	Hole ø 25 mm	25 mt	2700	0,026
9002PP30C3	Hole ø 30 mm	25 mt	1200	0,032
9002PP40C3	Hole ø 40 mm	25 mt	900	0,046

... UP TO 3 TIMES EXTENDABLE!

"BISMAGIKA®" is normally weldable with a hot melter for HDPE pipes. You can then make more splices rolls in case of very long pipes or recover all the pieces by welding them together.

"BISMAGIKA®" is made of self-extinguishing PP, highly resistant to crushing, to impacts against sharp objects and abrasion. It also keeps them all over time its physical and mechanical characteristics, even at low temperatures.

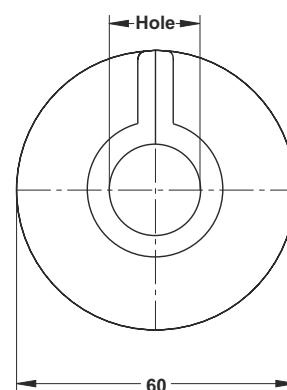

Unlike plasticized (softened) PVC, therefore which undergoes an aging process over time due to the degradation and release of plasticizers (Softeners). This phenomenon can come to cause the cracking of plasticized PVC products.

"VELOX" opening rosette for radiators, with snap closing

**Application:** For radiators

**Material:** polypropylene PP
